Campbell INTER-URBAN Press

VOLUME 28, No. 49 — CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA — FRIDAY, JUNE 1 1923

STATE WINS U. S. AID

CALIFORNIA TO REAL BENEFITS IN HIGHWAYS

FEDERAL MONEY GIVEN FOR "VICTORY" ROUTE

Choice of Wendover Cut-Off Is a Victory For Utah Commission.—Early Completion Is Promised.

San Francisco.—With federal approval granted by the secretary of agriculture for the construction of the Wendover cut-off link in Utah, the Victory highway was assured of a transcontinental route from New York to the Pacific coast with San Francisco as its western terminus.

The decision received here in a telegram from Governor Charles R. Mabey of Utah, ends a controversy of eight years standing.

Under the terms of the decision the Lincoln highway will now end in Salt Lake City, while the Victory highway pushes through to the coast. Work will be started on the Wendover cut-off at once.

The Wendover cut-off consists of a stretch of sixty miles in the western section of Utah, and is said to have the advantage of being within three miles from railroad tracks throughout the entire length. Traversing a desert region it will have a heavy rock foundation with gravel, and will cost approximately $500,000, it is said. The construction will be supported by government funds. It is expected that the road will be completed by 1924.

The Victory highway in the western states will run from Salt Lake City to Wendover, thence to Reno, Nev., thence to Trukee, down the Sacramento river over the new Antioch bridge to Sacramento, whence it will connect with San Francisco.

With construction on the Trukee route recently ordered by the state highway commission, the Wendover route is the last link in the Victory highway. The former will be sixteen and one-half miles long.

California has shown its interest in the building of this transcontinental thoroughfare by raising $150,000 with which to aid Utah and Nevada in making possible the highway in those states.

TOTAL OF $646,000 FOR STATE ROADS AUTHORIZED

Washington.—Secretary of Agriculture Wallace has authorized expenditures totaling $646,000 from national forest highway funds for five road building projects in California. The money will be distributed as follows:

Crescent City-Gr[illegible] Pass road, Siskiyou national forest $75 00. in addition to money already appropriated for use in lengthening the original project two miles.

Kern River Democrat Springs road, Kern county, Sequoia national forest, eight miles, $150,000.

Big Bear valley road, San Bernardino county, Angeles national forest, $75,000 to extend present project three miles.

Murphy-Big Trees road, Mariposa county, Stanislaus national forest, $160,000, fifteen miles.

Yuba Pass highway, Sierra county, between Cold Lake road junction and Sattley, Sierra national forest, $143,000, thirteen miles.

For location surveys involving seventy-five miles of highway in different sections of California $43,000.

FRANCE AND ITALY BOW TO U. S. WAR DEBT DEMAND

Paris.—An agreement meeting the United States' demand for $256,000,000 for the upkeep of the army of occupation on the Rhine has been signed. The treaty was signed by the United States and the interested allied powers. The funds will be drawn from German reparations.

Rome.—Formal announcement has been made by the finance ministry that Italy will honor her war debt to the United States. The Italian debt amounts to $1,648,034,000.

U. S. AUTHORITY OVER SHIP LIQUOR DENIED BY BRITAIN

Washington.—The British embassy has communicated to the secretary of state its contention that the American port authorities have no jurisdiction over liquor brought into American ports as a part of the regular supply of foreign vessels. Such jurisdiction, it is contended, extends only to portions of the cargo of such ships that is intended for importation into the United States, and in no way permits of interference with the ship's stations or stores.

French Birth Rate Falls

Paris.—France's birth rate has decreased 11½ per cent in this quarter year over the corresponding period last year.

MINE UNION TAX SAVED MURDERERS AT HERRIN

Brief Charges $900,000 Was Raised By Miners to Clear the Guilty Ones.—The Public Was Intimidated.

Washington.—A brief detailing the facts of the Herrin massacre and the two trials which failed to convict anyone for the twenty murders presented by the council for the bituminous operators' special committee before the United States Coal commission charged "that the verdicts of acquittal for the individual defendants were in reality verdicts of guilty against the United Mine Workers of America."

That the United Mine Workers, as an organization, planned and executed the crimes and by terrorism and the use of a special check-off tax approximating $900,000, together with community intimidation, prevented the guilty from being brought to justice, are charged in the document. The entire affair, according to the brief, was in pursuance of "an avowed purpose of preventing any person not a member of the United Mine Workers of America from mining a ton of coal" during strike by the union and was designed to help starve the public into tolerating submission to the union's strike demands.

The brief is signed by four members of counsel, Colonel Henry L. Stimson, Goldthwaite H. Dorr, Albert W. Putnam and William C. Chanler. It is the result of exhaustive study on the ground, including attendance at the trials, and makes an offer to prove its charges at open hearings.

PLUMAS COUNTY TRACT TITLE REVERTS TO GOVERNMENT

Washington.—The supreme court upheld the California circuit court of appeal in the big land fraud suit of the government against Curtis Collins and Holbrook company. As a result the federal government can now cancel patents to twenty-one land tracts, secured illegally under the timber and stone act. The government's suit was filed in 1922 and originally named seventy-nine defendants. The case involved 3,000 acres of timber land in Plumas county, now said to be worth $150,000. Following the purchase of the land by Collins and Holbrook from C. H. Holbrook and G. E. Tuman of Plumas county, the patentees, the United States government brought suit in the district court alleging that Holbrook and Tuman were not vendors, but agents for the holding company.

The district court ruled adversely to the government, but the circuit court of appeal reversed the lower court. It was then appealed to the United States supreme court, which upheld the circuit court of appeal.

GREAT BRITAIN ISSUES NEW UKASE TO RUSS GOVERNMENT

London.—Lord Curzon has demanded that the Russian government fulfill unconditionally terms of the recent British note or submit to a rupture of relations. Preparations were said to have been made that the British light cruisers and mine sweepers might be rushed to Russian waters from Portsmouth and Chatham. An anti-British demonstration of military nature was reported from Petrograd. It is understood the Soviet government has decided upon a stiff policy toward Great Britain in the dispute over fishing rights in Russian waters.

"FINAL WORD" GIVEN ENGLAND ON WAR DEBT PAYMENT

Washington.—The American debt funding commission has given its "final word" to British Ambassador Geddes on the proposed British changes in the agreement for payment of Britain's $4,000,000,000 war debt. It is now up to the British government to pass on the American attitude. If the British accept the United States view the agreement will be signed immediately thereafter. It is not expected the change in the British ministry will affect the payments.

BRICKLAYERS STRIKE TIES UP N. Y. CONSTRUCTION WORK

New York.—More than $200,000,000 in construction is tied up here by the strike of bricklayers against all contracts of the Mason Builders' association. This is in addition to $100,000,000 in construction work which has been suspended because of excessive costs. Failure of employers to comply with a demand for $12 for full working days in a contract dating from May 1 caused the strike. The association offered $10 a day with bonus during emergencies.

Malone Presidential Aspirant

London.—Dudley Field Malone, collector of the port of New York under Woodrow Wilson, has announced himself for president of the United States.

CALIFORNIA NEWS BRIEFS

Rev. Richard Vereker, pastor of the Auburn Catholic church has gone to Ireland, accompanied by Rev. James Dermody of Chico and his brother, Rev. Thomas Dermody of Galt. They are expected to be absent several months. The priests will sail from New York on June 2 aboard the Cedric for the birthplace and old home of all three in Kilkenny county, Ireland.

Mrs. Doretta Keller of Lodi, whose funeral was last week, was a member of one of the oldest families in that section, her father, Jacob Brack, being one of the earliest settlers in northern San Joaquin county. She was 63 years of age and is survived by two children, John Keller and Mrs. Lizzie Villinger, both of Lodi.

The most perfect foot in California has been found in Sacramento, and the possessor of this is Miss Juanita Sandmeyer, accredited by a committee of chiropodists at the convention of the California Chiropodists' association with this enviable feminine possession.

Henry Speakerman, sojourning on the John de Martini ranch, Tuolumne county, for the sake of his health, decided to pass the time by prospecting. He was rewarded by uncovering $700 worth of cube and flake gold in a pocket seven inches from the surface.

Two men walked into the Pacific Southwest Trust and Savings Bank at Hollywood and while one held the customers at bay with a pistol, the other forced a teller to place $3,000 in bills in a canvas sack and hand it to him, after which both men made their escape in an automobile.

A two week's campaign for the erection of a new Methodist church in Yuba City has been launched. The building, under the plans, will cost $25,000, and will take the place of the structure that has given service for more than half a century.

Saratoga's petition for an election to form a new lighting district was denied by the board of supervisors. The improvement club plans to revamp the lighting district boundaries to satisfy the objectors and campaign for it again.

Miss Jessie Anderson was elected Queen of the Peaches to preside over the Gridley Peach Day picnic on June 1. The contest was spirited from the first and the final outcome was in doubt until the last vote had been counted.

instituted at Weed. Over 300 Masons, representing the seven other lodges in the county, as well as lodges from other parts of California and the United States, witnessed the ceremonies.

The body of A. Marcial, laborer, was found in a vineyard at Corona and officers are searching for Jesus Perez, said to have eloped with Mrs. Marcial a year ago and to have been seen with Marcial the preceding night.

White Pine lodge of Masons was

Redding's new grammar school building has been accepted from the contractors by the trustees. In round numbers, the contract price was $78,000, but extras add $5,000 to that contract.

The paving of the alleys in Marysvills's business district will begin soon, and upon their completion the city will have a total of 178 blocks of modern pavement, or 71,200 lineal feet.

One week of adventure in a stolen automobile resulted in Homer Fowler, 17, of Chico and Douglas Young, 18, of Westwood being placed in the Chico jail to face larceny charges.

A $100,000 building, three stories in height and measuring 60 by 100 feet, will be erected to house the offices of the Pacific Gas and Electric company at San Jose.

Sacramento delegates to the annual state convention of the Native Sons of the Golden West, at Santa Barbara, captured the 1924 state convention of the organization.

Residents of the Saratoga vicinity are elated because the road between that village and Congress Springs has been ordered completely graveled and repaired.

Lick Observatory will soon be supplied with electric power. Twenty-four miles of wire and ten miles of construction will be required to supply the current.

Mrs. Domitilla Metcalf, 84, the first girl born in the Napa valley, died at Napa from apoplexy. Mrs. Metcalf was a daughter of General Cayatano Juarez.

The John Timmons ranch home near Etna Mills, which was recently destroyed by fire, is to be replaced by a concrete block structure.

The new alumni science hall at Santa Clara is almost completed and all was in readiness for the cornerstone laying May 30.

A branch of the Auburn Bank, which is being established at Turkee will open for business June 4.

PAGEANT WELL ATTENDED

The Peninsular Pageant of Progress and Fair at San Carlos has been the mecca for tens of thousands of visitors since its opening last Saturday. No similar project ever attempted before has approached the present exposition by way of exploiting the resources of the Peninsula. Before its doors close on Sunday night it is expected that all records for attendance will have been shattered.

The big event for Sunday evening will be the reproduction of the entire three episodes of the historical pageant which includes the Days of '49, the Spanish days and The Indian Days. Sunday also has been designated as Peninsular Day, San Jose Day and Navy Day.

No feature has been more popular than the Indian village with the 50 members of the Pemo tribe from Mendicino county. Their weird dances and tribal customs have been of interest to thousands.

"I'M FROM MISSOURI, TOO"

The Missourians will take possession of Alum Rock Park, near San Jose, Saturday, June 9, according to V. T. McCurdy, president, and H. G. Hill, secretary, of the Missouri State Society, recently organized at the San Jose Chamber of Commerce. All the usual enjoyable features of the old-time picnic will be there—county registers, badges, hot coffee, basket dinner, and a brief program, with Hiram Blanchard as toastmaster. Much interest is manifested in the program on account of some local talent, for example, a song composed by one of the ladies, set to the music of "Old Black Joe." All the Missourians in the valley and the bay section are cordially invited.

FARM YEAR BOOK

Several hundred copies of the Agricultural Year Book, considered to be one of the most valuable government documents issued and certainly one of the most expensive to prepare, are available for distribution through Senator Shortridge. Those who are interested may obtain a copy free by sending your name and address to the Senator's Washington office, 428 Senate Office Building.

An unseasonable rain is reported to have caused a nominal damage to the grain, strawberry and cherry crops around Turlock.

Five men were sent to the hospital at Hetch Hetchy following a blast from a dynamite cap which one of them struck with a pick.

Five thousand farmers and their families attended the annual Orange county farm bureau picnic. Congressman Swing delivered an address.

The directors of the Table Mountain Irrigation district have called a bond election for June 15 to vote $125,000 for the construction of a water supply system.

A confession of murdering eight revenue officers near Kirby Knobbs, Ky., was made to the Los Angeles police by Joe Laurie, arested for stealing a ride.

George A. Goatley, farm adviser of Glenn county for the past four years, has submitted his resignation to become effective July first and will enter private business.

Rev. J. P. Ralstin, dean of clergymen in Ventura county, delivered the address at the laying of the cornerstone of the J. S. Herkey Memorial Christian church building at Ventura.

Supervisor Hynes of San Francisco has been requested to appear before the Public Spirit club and explain his conduct which resulted in his being forcibly expelled twice from the meetings of the board.

The Heiden livery barns at Tehama, in the old days considered the most modern in the state and having the distinction of housing many famous racing steeds of the period, is to be wrecked for the salvage.

The city trustees of Red Bluff have before them a complaint of local business men that firms outside of the city are doing business through agents in that town, without license as required of the local firms.

C. W. CULB PICNIC JUNE 11

The Country Woman's Club met at the home of Mrs. Chas. Sutter Monday afternoon.

There was the usual business transacted and many matters of interest discussed.

Miss A. E. Denton and Mrs. Effie Hubbell were on the program, but Mrs. Hubbell is away and Miss Denton was unable to be present so the subject, "Women Scientists" was divided among several members. Mrs. L. F. Shaw acting as leader.

An article from the Review of Reviews on Radium and Madame Curie, its discoverer, was read, followed by an interesting account of the life of Caroline Herschel, a sister of and co-worker with Prof. Herschel the noted astronomer.

Notes were read narrating the most important facts concerning Annie Jump Canon, another noted astronomer connected with Harvard University, and Anna Botsford Costock, a famous Natural History Artist and engraver, and author of many books on natural history.

Mrs. Shaw read a very interesting account of Maria Mitchell, for many years professor of astronomy at Vassar college.

Plans for the picnic to be held June 11 at Los Gatos were discussed. Each member will furnish their own utensils including cup for coffee, sandwiches and a dish for the table.

REVERENCE FOR LAW

Let reverence for the laws be preached by every American mother to the lisping babe that prattles on her lap. Let it be taught in schools and seminaries, and in colleges. Let it be preached from the pulpits, proclaimed in legislative halls, and enforced in the courts of justice. In short, let it become the political religion of the nation—Abraham Lincoln.

Mr. and Mrs. J. H. Campbell went to Berkeley Saturday to visit their son, Delbert, and were also going to call upon A. W. King, who Mrs. Campbell calls one of her boys.

Mrs. Kate G. Wiley and Mrs. A. M. Hall, of Galva, Illinois, and Mrs. Mamie Hunter, of San Jose, were guests of Mr. and Mrs. C. H. Whitman during the past week. Mrs. Wiley and Mrs. Hall had spent the winter in Los Angeles but were greatly charmed with our valley where nature has been so lavish with her gifts of beauty and blessing.

The Memorial services held Sunday morning in the Congregational church were attended by a large gathering. Dr. W. I. Merrill sang a classicaly majectic solo, very fittingly for the occasion, and Rev. F. C. Farr's address was on a new theme inspiring and convincing of individual responsibility for world conditions.

Last Saturday was "Field Day" for the co-eds of Stanford and a large group received awards and recognition in various forms. Miss Joyce Robson was one of the five who received a Block "S" sweater, and was also among the seniors who received other awards.

German Magnates Back Offer

Berlin.—German industrial leaders according to one of the most prominent of their number in the Ruhr, will get behind the next government reparations offer with definite assurances of guarantees.

Sells Interest in Yanks

New York.—Captain T. L. Huston, half owner of the New York Yankees, has sold his interest in the club to Colonel Jake Ruppert, owner of the other half interest. Captain Huston will clear out of baseball.

Miners Seek New Wage Scale

Washington.—Negotiation of a scale for anthracite miners will be discussed at the scale convention of the United States Mine Workers at Scranton, Pa., June 26.

CAMPBELL HI OPERETTA SUCCESS

Campbell High School has presented many successful plays and Spring Festivals, but none have been any more highly praised than the operetta, "Miss Cherry Blossom" which was given last Friday evening and repeated last night.

The cast and musical numbers have been published, as well as the outline of the operetta, so that our readers are already familiar with them, even if the performance was not witnessed.

All of the acts took place in Kokemo's Tea Garden, Tokyo, Japan, and the highest praise is due Miss Kittie Johnson of the Drawing Department of the school for the remarkable fine back drop which represented the famous sacred mountain, Fujiyama. The reed chairs and tabes with the tubs containing artificial cherry trees in bloom with incense burners sending up pungent oriental smoke, created just the proper effect, and heightened the success of the production.

The costuming was equally attractive, the gay kimonos of Miss Cherry Blossom and the Geisha Chorus elicited many compliments, together with their songs and characteristic figures.

The American girls chorus were prettily attired in sport costumes and summer gowns making a striking contrast with the almond eyed lassies. The young men's chorus was nattily attired in dark coats, white trousers, and straw hats. For one song they played an imitation accompaniment on tennis rackets.

The score is both musical and snappy, and the characters all interpreted their parts well. As this was the debut of several as soloists, their freedom from self-consciousness was unusual, owing largely to the intensive training they had received. This was particularly true in one scene between Cherry Blossom and her lover, John Henry Smith, which might easily have been either silly or constrained. Individual parts were trained by Miss Otterman of the faculty.

The results of the musical training being given under the direction of Prof. Josef Halamicek, are now beginning to be very apparent. But a very few years ago it would have been absolutely impossible to put on such an entertainment by the high school as no boys, at least, would have been willing to take their part. It was a matter of comment among many how well, not only the soloists, but the chorus, rendered their numbers. The chorus steps and figures were under the direction of Miss Boesch.

The community is proud of such entertainments given by our school and the faculty are deserving of every appreciation for their untiring efforts in helping these young people to develop all their abilities.

CAMPBELL TENNIS GIRLS WIN AGAIN

Campbell High girls again carry off the honors in tennis. This time it was the fast racketeers of San Jose that met defeat, and as admitted by some of the visitors, the results were complete surprises for they had felt sure of victory. Anna Lund won her first set in in first singles easily scoring 6-1, but the second set was hotly contested, she winning 7-5. Geraldine Delbon lost second doubles, our only defeat. Ruth Miller and Wilma Smith easily captured the first double set by 6-1 and 6-1. Loraine Suggs and Wanda Bley lost their first set in second doubles 10-8 but came back strong taking the next two 6-3 and 6-2.

WHY CITIES GROW

The rapid growth which many progressive cities and towns succeed in attaining has been one of the marvels of American life. People who are ambitious to have their own communities go ahead often ask how it is that these advancing places secure these quick gains.

Investigation would commonly show that such progress is not usually due merely to favorable locations. The citizens of such places have not sat down and waited for progress to come to them. They have done a lot of hustling themselves.

The reputation that a certain city is a live town has a lot to do with its advance. People like to buy real estate or engage in business in such communities, as they feel that investment values will gain. They enjoy the feeling of life and activity that prevails in such a city.

Chambers of Commerce, Boards of Trade, etc., have had much to do with the advance of these fast growing towns. The results that such organizations get are broader than what shows on the surface. It is commonly true though that when men band themselves together in an active association of this nature, they usually achieve some of the definite results that they aim for, in the shape of public improvements, new industries, etc.

But even if such an organization does go along for a time without much tangible achievement, the mere fact that the business men are working unitedly for new facilities and advantages, creates an atmosphere of progress. The activities of such an organization are reported in the newspapers and discussed by travellers and residents. The idea spreads around that such a city is a place of active and working community spirit, where the people are hustling to get things done. When a place gets that reputation, it will grow of its own momentum.

GET INTO POLITICS

The commencement season is again at hand and the schools and colleges of the land are turning out the annual crop of sweet girl graduates and their manly young companions.

This army of graduates must soon lay aside the duties of the school room and take upon themselves the role of citizenship. This role of citizenship includes all the duties of a man's and woman's life today, domestic, individual and political.

Under present conditions government enters into all branches of life. If government is bad, business and the home suffer. The ever-increasing complications of social and industrial conditions have increased the dependence of men upon each other, and it behooves all of us to co-operate effectually in the business of government. Therefore we can no longer shun politics.

As a matter of duty, it is clear that the youth of our land must give its best thought and energy to the problems of government.

Let these graduates give heed to the functions of government, through the ballot or otherwise, for in a few years they will be in charge of the Ship of State.

This field is one of great interest and fascination and offers much to both young men and women.

By taking an interest in politics we do not mean the petty politics of the boss, or the seeking of an office for the mere salary. We mean an active participation in the privileges of good citizenship. Inform yourself regarding the functioning of political parties, because it is generally true that when you once begin to understand, then you begin to influence the course of events.

The world is calling for leaders and the leaders of tomorrow must come from the ranks of the graduates of today.

You can't keep out of politics if you want to feel the satisfaction that comes to one who is living up to the measure of his manhood in every relation of life.

FINDING JOBS FOR FAMILIES

The United States Labor Bureau is taking constructive steps toward bringing together the farmer and the man looking for a job.

To give a specific illustration it has appointed a representative of the Salem, Oregon, Y. M. C. A. to register requirements of farmers and to take names of men, women, and children seeking employment. Both parties turn their names into this man and he in turn brings the employer and the employe together. This is being done early in the season to facilitate the handling of farm crops.

As most farmers furnish good camp grounds, free wood, water and other conveniences, it is the aim of the Labor Department to try and encourage more "family work", in other words, father, mother and children, on the farms this coming season. It is an excellent idea and eliminates many abuses that have crept into professional employment agencies.

It is hoped that this undertaking will prove a success at Salem and other points in the country where similar offices will be established.

RAILROAD ELECTRIFICATION PRECEEDING

Electricity is rapidly replacing coal where power is required. It does away with dirt and resulting damage to property. Greater still, it does away with constant trouble involved in securing coal supplies and labor o handle the same.

The Virginia Railway Company, a famous coal road, has just awarded a $15,000,000 contract for electrification of 213 miles of its track acress the Alleghany mountains between Roanoke and Mullens, West Virginia.

The road has been using the heaviest type of steam locomotives but it took three of these engines developing 7,000 h. p. to move a 5,500-ton train over the grade at 7 miles per hour. The new electric locomotives developing 20,000 h. p. per train will haul a 9,000-ton train over the same grades at 14 miles per hour and if necessary, a 12,000-ton train can be hauled at the same speed.

The day of electricity is here. In transportation, on the farm, in the home and in the air, it has been the greatest labor saver and servant to mankind that was ever applied to human needs. It is safe to say that this latest railroad electrification contract is but a forerunner of many such contracts to be let in the next ten years.

If the pulilng power of electric and steam equipment were equal, the convenience to the public resulting from the absence of smoke with resulting damage to clothing and property, would turn the tide in favor of electrical equipment.

TELL IT TO JANE

Study the home life of most men who have money and have made a success in business, and you will find that their wives have been thrifty women.

Look over the list of the men who have shone in society, and the list will reveal that their wives were social climbers, but they slipped on the ladder of success and struck bottom.

More men are made or marred by their wives than by any other human agency. Give a man a gadding, butterfly for a wife and he will be a worm in business, nine times out of ten.

Then there is the other side. Some men are slaves to their business, and if it were not for the influence of their sensible wives they would sleep in the stock room, and that means premature planting.

Back of every successful man you will find a sensible woman.

The empty milk bottles, washed and waiting for the milkman, on the front step every morning, is a sure sign that the queen in that home is standing back of her knight who goes forth to battle each day.

FIELD DAYS AND CHAMPIONS

ATHLETIC events are just now very much in the news. Every week we read that somewhere there was a track meet; and if we happen to have a high school pupil in the family, we hear at table that Campbell "High" competes in I. A. U. meet at Reed Field next Saturday. From all this we gather that we are in the midst of the annual season of smashed records and new champions.

Today, however, we shall introduce you to an old champion, long dead, whose record comes to mind because his birthday anniversary is in June. His name is well known to many people—not as an athlete but as one of the world's famous preachers. Still, we are not going to point out this man as either a champion athlete or a champion preacher, but as a champion of an entirely different sort.

Besides being a preacher, he was a Savings Account builder. The Reverend John Wesley, according to his biographers, handled his funds in a way that entitles him to rank as one of the champion savers of the world. Wesley started as a young man by setting his schedule of personal expenses very low, low enough to save something out of a limited income. As his income rose he kept his personal expenses just the same, so that he saved the full amount of the increase. No greater degree of self-denial could be imagined; no better record of saving would be possible to make.

This talk is perhaps a rather strange mixture, blending athletic news, ministerial biography and Savings Account advice; but the bank advertiser has few subjects, and so these few must be continually shown in new lights—the subjects are always serious. Common to athletes, preachers and all others who would accomplish anything worth while, is intense concentration on the matter in hand. Although, to succeed financially, one does not need to be best in his class, one needs to better the average. We know many a promising young man who is taking his Savings Account just as seriously as though he were racing to be a champion.

---flowing with Milk and Honey

WHEN MEN of ancient times wanted to describe in a few words a rich country, they called it a "land flowing with milk and honey." No figure of speech could have been more appropriate. Milk, the most valuable food in the world, a body builder. Honey, the most delicious of all sweets, a producer of bodily energy. And today, thanks to the sciences of food analysis and sanitation, we have better milk and more delightfully flavored honey than the ancients ever dreamed of.

Homestead Raw Milk is produced and bottled under such favorable conditions that it actually tests within the requirements of certified milk. As between raw milk and pasteurized milk the San Jose inspector explained to a class of Teachers' College students recently that the pastuerized does not keep sweet so long as the raw; for that reason the law requires the caps of pastuerized milk to be dated. However, pastuerized milk is good; but Homestead raw milk is better. New price, June 1, 13c at the store or delivered.

Thistle Honey: Sage honey for reputation, Orange honey for a nice-sounding name, and Thistle honey for the finest flavor—so say the producers who claim to know. See our Thistle Honey in the attractive octagon jars, selling at 30c.

Improvement Club, Thursday.

Mrs. R. H. Hyde returned Sunday from her visit to Modesto.

Lawn social and Cafeteria Supper, June 7, M. E. Ladies Aid.

The faculty of the C. U. H. S. enjoyed a picnic at Santa Cruz Wednesday.

Part of the senior and junior classes of the C. U. H. S. spent Wednesday at Santa Cruz.

All former residents of Minnesota are invited to the Gopher Picnic at Los Gatos city park, tomorrow, June 2.

Mrs. Rose Kock of Cedar Rapids, Iowa, is here for an extended visit with her sisters, Mrs. Agnes Benefiel and Mrs. A. R. Miller.

The annual Baccalaureate services for the senior class of the C. U. H. S. will be held Sunday evening, June 10, in the Methodist church.

Quite a noticeable influx of arrivals for the summer's work is already apparent by new faces on the streets and new names at the postoffice.

Mr. and Mrs. Paul Darling and son left Monday on their return to their home at Glendale after a vacation spent at Ben Lomand and Campbell.

E. W. B. Hoag left this week to visit sisters in Iowa and Chicoga whom he has not seen for forty years, expecting to remain for six weeks or more.

Earl McCuen was the guest of his uncle, L. M. Beall, Tuesday. Mr. McCuen comes from Lemoore where he is employed in the First National Bank.

The Memorial window for the Congregational church has arrived and arrangements have been made for the dedication of the church to take place, Sunday, June 17.

Attorney Ed. Zion came over from Modesto Wednesday and delivered the Memorial address at Los Gatos, taking his father and mother and Mr. and Mrs. W. T. Alexander with him.

Ice cream lawn social, Methodist parsonage, afternoon of Thursday, June 7. Cafeteria Supper in church parlors, 5:30-7:30 with program in the evening. The public is invited.

Mr. and Mrs. Ralston Alison and Mr. and Mrs. G. B. Rodeck returned Saturday from an auto trip north of the Bay, which took them as far as Ukiah in Mendocino County. They also visited Clear Lake in Lake County.

Mr. E. C. Hurlburt and son, Elgin, motored over from Pacific Grove, for the week-end, and to witness the production of "Miss Cherry Blossom" in which Franklin Blaine had one of the steller parts, and Miss Pauline and George were in the choruses.

THE SCORE GOES UP

Thousand pound butterfat producers in the dairy world are coming about as fast as home runs in the sport world. The latest cow to produce over a thousand pounds of butterfat is a Holstein by the name of Irene Segis Pontiac owned by the Palo Alto Stock Farm at Palo Alto, California. Her record according to the Advanced Registry office is 30,022.3 pounds of milk and 1,017.24 pounds o ffat, equal to 1,271.55 pounds of butter. Irene is the sixty-eighth Holstein to produce 1,000 pounds fat. Only 90 cows of all breed have equaled this production.

In her highest month Irene Segis Pontiac produced 114.239 pounds of butterfat and in her lowest month she produced 63.467 pounds of fat. She freshened at the age of five years five months.

IMPROVE YOUR FLOCKS—White Leghorn cockerels hatched Apr. 3 from best laying strains of Oregon Agricultural College stock, $1.00 each. Order now, F. S. Newcomb, 295 Campbell Ave.

W. C. T. U.

The Woman's Christian Temperance Union met with Mrs. F. C. Farr on Wednesday afternoon, May 23, holding a Mothers' Meeting with the superintendent.

After the usual devotionals and declaration of principles, various items of business were dispatched. Among the communications was a request from the county superintendent of the departments of Americanization to set a date for the coming of Miss Amy Spaulding, a well-equipped speaker and worker sent out by the national W. C. T. U.. It was voted to make the date of her meeting Wednesday, June6, Mrs. F. M. Righter having invited the union for the annual "Cherry Feast" at her home upon that date. At this time also the Sixth Grade pupils who earned the prizes offered by Mrs. Kennedy and Mrs. Whitman, will be special guests and will receive their prizes. This will be followed by Miss Spaulding's address. Any friends interested in the study of methods relating to Americanization are cordially invited to attend.

Mrs. Farr had suggested that each one present at the Mothers' Meeting give a recollection of childhood as part of the afternoon's program. This plan was followed and a great variety of experiences were given, some pathetic, some humorous, all interesting. The state superintendent of Chid Welfare had sent a paper, which was read and enjoyed. A social hour followed during which delicious refreshments were served, they then adjourned to meet with Mrs. F. M. Righter June6, at 2.30 o'clock.

Commercial Association, June 6

Improvement Club, Thursday.

Miss Catherine Cooper is here with her grandparents for a time, since the close of the spring term at U. C. where sshe is specializing.

Geo. Scranton, who with his sister, Dorothy, attended the C. U. H. S. part of the year, was over from Pacific Grove for a few days this week.

Mrs. Lena Every of Mason, Mich., is expected to arrive Sunday to spend the summer here with her sister, Mrs. Stella Swenson of Los Gatos Road.

Miss Amy Spalding, National Americanization worker for the W. C. T. U. will speak at the next meeting of the Union, Wednesday, June, 6, at the home of Mrs. F. M. Righter.

Miss Laura Blaine has received notice of her election to the schools of Haywards, where Mr. W. B. Kammerer has been principal since leaving the Campbell school. Miss Blaine's many friends are gratified at this promotion and recognition of her ability.

NOTICE

To subscribers to the San Francisco daily papers:

On June 1 the agency for the Call and the Bulletin will be transferred from Blaine's Store to the Busy Bee. All subscriptions owing to June 1 should be paid to John D. Blaine, who represents the bondsmen of R. L. Blaine, deceased.

Regarding the Examiner and the Chronicle, the Busy Bee has the agency and the collection rights for these papers from May 1. Subscriptions owing up to May 1, however should be paid to John D. Blaine, who represents the bondsmen of R. L. Blaine, deceased, in this case also. As it is difficult for J. D. Blaine to find opportunity to call on all the subscribers, the assistance rendered by those who pay at the store will be greatly appreciated.

WASHINGTON STATE SOCIETY WILL HOLD MEETING AND PICNIC

Monday evening, June 4, all former residents of the state of Washington are urged to attend a meeting to be held at the Chamber of Commerce in San Jose at 7:30, when the organization of the Washington state society will be perfected. Fred Hitt, of Los Gatos, who is the secretary, urges all Los Gatos people who came from the Evergreen state, to make it a point to attend this meeting. A program and a general good time is being arranged.

The Washington state society will also hold a picnic at Memorial Park, Los Gatos, on Saturday, June 16th, to which all former Washingtonians in this valley and the bay section are invited.

The Modern Funeral

The funeral director should, from the time he is called until the dismisal of the friends at the home, understand all that is to be done. He should diagram the proceedings that will be necessary before he starts in, and should be able to see the end before he does the beginning.

He must know that all requests made and desires expressed have been executed and granted, and never depend on or take for granted that someone else will see to this or that.

He should be well informed regarding all funeral arrangements—relieving the family of a burden that should not be carried in addition to the one already upon them.

Preserving time — and a cool kitchen

Make canning time a real pleasure this year by using a good oil cookstove. It concentrates a steady, controlled heat directly under the utensil. Your task is shortened and your kitchen is kept cool, clean and comfortable.

To insure best results, use only Pearl Oil—the clean-burning, uniform kerosene—refined and re-refined by a special process.

Sold by dealers everywhere. Order by name—Pearl Oil.

Ford

ANNOUNCEMENT
OF INTEREST TO
Millions of Families

"I will build a car for the multitude,"

Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

FORD WEEKLY PAYMENT PLAN

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to put it within the reach of the millions of people who have never been privileged to enjoy the benefits of motor car ownership.

And now the way is open.

Under the terms of this plan you can select your Ford car, set aside a small amount each week, and you will be surprised how soon you will own it. In the meantime your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it—father, mother, brothers and sisters each doing a little.

Why not start today. Stop in and talk it over with your local Ford dealer. He would be glad to fully explain the details of the plan and help you get started toward the ownership of a Ford car.

a better crude makes a *better* Oil

Zerolene oils are made from selected Western Naphthenic Crude, which repeated tests have shown to produce an oil having greater "crawling" qualities, greater adhesiveness, and greater stability than oils made from other crudes. *Hence the car lubricated with Zerolene will use about 5% less gasoline because it is continuously better lubricated.*

Moreover, Zerolene produces less carbon than any other oils we have tested or been able to produce. *Cars lubricated with Zerolene run from 25% to 50% farther* before valve-cleaning and carbon-removing operations are necessary.

Insist on Zerolene—even if it does cost less.
